Gandhi–Tagore Debates: Nationalism, Society and Civilisational Vision

GS Paper I: Modern Indian History: Eminent Personalities

Context:

On the occasion of the **birth anniversary of Rabindranath Tagore**, celebrated as **Rabindra Jayanti** ('Pochishe Boishakh'), Prime Minister Narendra Modi paid tributes to him, describing Tagore as a **timeless voice of India's civilisational soul**.

Fundamental Differences between Gandhi and Tagore:

- ❖ **Art vs Utility:** Rabindranath Tagore was an **artist, poet, painter, and musician** who emphasised beauty, creativity, and cultural refinement.
 - Mahatma Gandhi focused on the **practical and moral utility of ideas and actions** for social transformation.
- ❖ **Thinker vs Man of Action:** Tagore functioned primarily as a **philosopher and intellectual**.
 - Gandhi emerged as a **mass leader** who directly mobilised people through movements like Non-Cooperation and Civil Disobedience.
- ❖ **Lifestyle and Social Background:** Tagore came from an **aristocratic zamindar family** and maintained a **refined, scholarly lifestyle**.
 - Gandhi deliberately adopted **simplicity** and identified himself with the common masses through austere living.
- ❖ **Bihar Earthquake Debate (1934):** Gandhi described the **Bihar earthquake** as **divine punishment for untouchability**.
 - Tagore rejected linking natural disasters with morality and criticised such interpretations as superstition.
 - He argued that **associating innocent deaths with divine punishment** raised **ethical concerns** about justice and morality.

Debate on Nationalism and Political Movements:

- ❖ **Response to Jallianwala Bagh:** Tagore **renounced his knighthood** to protest colonial brutality.
 - Gandhi responded by **launching the Non-Cooperation Movement (NCM)** to mobilise nationwide resistance.
- ❖ **Critique of Non-Cooperation:** Tagore feared **aggressive boycott politics** and **burning of foreign goods** could encourage hatred and emotional nationalism.
 - He cautioned against **blind obedience to charismatic leadership** without critical thinking.
- ❖ **Science and Rationality vs Mass Mobilisation:** Tagore emphasised **logic, scientific temper, and intellectual freedom**.
 - Gandhi prioritised **reaching and mobilising India's masses**, even through emotionally powerful symbols and practices.

Charkha Controversy:

- ❖ **Gandhi's Rule on Charkha (1924):** Congress leaders were required to wear khadi and **spin 2,000 yards of yarn every month**.

- ❖ **Gandhi's Vision of the Charkha:** Gandhi viewed the charkha as a tool to make India self-dependent in clothing production.
 - He viewed **spinning as a symbol of self-reliance, dignity of labour, simplicity, and resistance** to colonial economic domination. He believed **spinning connected elites** with the **suffering of the poor**.
- ❖ **Tagore's Criticism:** Tagore argued that **compulsory spinning** would **suppress individuality and creativity**.
 - He believed **repetitive mechanical labour** could **homogenise society** rather than liberate human potential.
 - **Tagore stressed freedom of individual choice and creative expression.**
 - He opposed turning spinning into a moral or political obligation.

Lessons from Sparta and Athens:

- ❖ **Civilisational Analogy:** Tagore cited **Sparta** as an example of a society destroyed by excessive focus on one objective.
 - He **praised Athens** for flourishing through **openness to art, science, philosophy, and diverse human pursuits**.
- ❖ **Warning for India:** Tagore **cautioned against reducing national regeneration** to a single programme like the charkha.
 - He argued **India's progress required innovation, scientific development, and cultural diversity**.

Gandhi's Response:

- ❖ **Critique of Intellectual Distance:** Gandhi suggested **Tagore viewed society** from an **"ivory tower"** and was **distant from the hardships of ordinary people**.
- ❖ **Defence of Spinning:** Gandhi maintained that **participation in manual labour deepened moral understanding and social empathy**.
 - He even remarked humorously that **Tagore's poetry might become richer if he spun the charkha daily**.

Conclusion:

The Gandhi–Tagore debates remain a fodder for understanding **healthy democratic dissent**, where **ideological differences coexisted** with **mutual respect and constructive criticism** for India's progress.

Mains Practice

- Q.** The ideological differences between Gandhi and Tagore over the 'Charkha' reflect a deeper debate between utilitarian mass politics and intellectual individualism. Elucidate. (150 Words, 10 Marks)

A Watershed Moment In India's Defence Posture

GS Paper III: Security Challenges and their management in border areas

Context:

One year after **Operation Sindoor**, India is commemorating the operation as a landmark moment that reshaped its national security doctrine, military strategy and indigenous defence modernisation.

About Operation Sindoor

- ❖ It was a military operation launched by India on **7 May 2025** in response to the **Pahalgam terror attack of 22 April 2025**, in which 26 civilians were killed.

Shift from "Dossier Approach" to "Zero Tolerance"

- ❖ **End of the Dossier Era:** Earlier, India largely **relied on presenting evidence and diplomatic dossiers** to the international community after terror attacks.
- ❖ **Adoption of Zero Tolerance Policy:** After the **2025 Pahalgam attack**, India signalled a more proactive doctrine by **treating cross-border terrorism as an "Act of War"**.

- ❖ **Shift towards Direct Deterrence:** The approach marked a **transition from reactive diplomacy to calibrated military and strategic response.**
- ❖ **Breaking the Nuclear Deterrence Barrier:** India indicated that **Pakistan's nuclear posture would no longer prevent conventional counter-terror operations.**
 - The policy aimed to establish stronger deterrence by conveying readiness to bear escalation risks to counter terrorism effectively.

Execution of Operation Sindoor

- ❖ **Precision Strike Operation:** Operation Sindoor was **launched targeting nine identified terrorist infrastructure** sites in Pakistan and PoK.
- ❖ **Demonstration of Surgical Capability:** Indian forces **successfully neutralised the targets** with precision despite heightened Pakistani preparedness.
- ❖ **Effective Use of Air Power:** The operation **highlighted India's advanced precision-strike and deep-target engagement capabilities.**
- ❖ **Tri-Services Coordination:** The **Army, Navy, and Air Force** displayed **strong operational synergy** and **integrated planning.**
- ❖ **Lessons from Kargil Applied:** Unlike coordination gaps witnessed during the Kargil conflict, the **operation reflected improved jointness among the armed forces.**
- ❖ **Validation of Theatre Command Concept:** The success reinforced the **rationale for integrated Theatre Commands with unified operational control across services.**

Defensive and Retaliatory Success of Operation Sindoor

- ❖ **Effective Missile Defence:** India's **S-400 air defence system** and indigenous **"Kavach" systems** intercepted most incoming Pakistani missiles during retaliatory attacks.
- ❖ **Demonstration of Air Defence Capability:** The operation showcased India's **growing multi-layered missile defence preparedness** and technological capability.
- ❖ **Precision Retaliatory Strikes:** India responded with **precision strikes using BrahMos** and other missiles against **key Pakistani airbases** such as **Nur Khan** and **Sargodha.**
- ❖ **Deep Strike Capability:** The attacks demonstrated **India's ability to accurately engage strategic targets** deep inside enemy territory.
- ❖ **Controlled Escalation Strategy:** A **ceasefire** was reached **within 88 hours** after India had achieved its primary military objectives.
- ❖ **Strategic Restraint:** India balanced **decisive retaliation** with **calibrated restraint**, avoiding prolonged escalation while signalling credible deterrence.

Way Forward:

- ❖ **Strengthening Defence Preparedness against China:** India must **accelerate military modernisation, advanced capability development,** and long-term strategic deterrence to **address the challenge posed by China.**
- ❖ **Promoting Atmanirbhar Bharat and Whole of Nation Approach in Defence:** Greater focus on **indigenous defence manufacturing, innovation,** and advanced R&D in areas like **drones, AI, missile systems,** and electronic warfare is **essential.**
- ❖ **Enhancing Public-Private Collaboration:** **DRDO and defence PSUs** should **deepen collaboration with private firms** like **Larsen & Toubro** and **Mahindra Group** to **strengthen innovation and self-reliance in defence production.**

Conclusion:

Operation Sindoor marked a shift towards **proactive deterrence** while **underscoring the need for sustained defence modernisation and self-reliance** to secure India's long-term strategic interests.

Mains Practice

- Q. The transition from 'Reactive Restraint' to 'Escalation Dominance' marks a watershed moment in India's strategic military doctrine. Analyse this statement in the context of recent cross-border anti-terror operations. How vital is the 'Whole-of-Nation' approach in sustaining this new normal? (250 Words, 15 Marks)

Implications of a Chief Minister Refusing to Relinquish Office After Electoral Defeat

GS Paper II: Polity and Governance

Context:

Following the BJP's victory in the West Bengal elections, **Chief Minister Mamata Banerjee alleged electoral malpractice and refused to resign**, claiming the verdict resulted from a conspiracy rather than a genuine public mandate.

Constitutional Provisions and Governor's Role

- ❖ **Article 164 and Appointment of Chief Minister:** The Constitution provides that the **Chief Minister is appointed by the Governor** and the **Council of Ministers holds office during the Governor's pleasure**.
- ❖ **Constitutional Nature of "Governor's Pleasure -Article 164 (1):** The Governor's pleasure is **not absolute** but **operates within the framework of parliamentary democracy and legislative majority support**.
- ❖ **Majority Principle in Parliamentary System:** A government can continue in office **only as long as it enjoys the confidence of the Legislative Assembly**.
- ❖ **Governor as Nominal Head:** Article 154 vests executive power in the Governor, but the Supreme Court has clarified that the **Governor functions as a constitutional or nominal head**, while **real executive authority rests with the elected Council of Ministers**.
- ❖ **Aid and Advice Principle:** Article 163 mandates that the **Governor ordinarily acts on the aid and advice of the Council of Ministers** except in limited situations where the Constitution grants discretionary powers.

Automatic Dissolution of the Assembly

- ❖ **Article 172(1):** Article 172(1) provides that a **State Legislative Assembly continues for five years from its first sitting unless dissolved earlier**, after which it **stands automatically dissolved**.
- ❖ **Limited Impact:** Once the Assembly's term expires, a **Chief Minister's refusal to formally resign has limited constitutional relevance** as the **government effectively ceases with the dissolution of the House**.
- ❖ **Governor's Transitional Responsibility:** Following dissolution, the **Governor facilitates the constitutional transition until a new government is formed**.
- ❖ **Convention of Democratic Propriety:** Although a **defeated Chief Minister is expected to resign** as a matter of **democratic convention and respect for the electoral mandate**, it is not a **strict legal requirement** once the Assembly's tenure ends.

Determining Majority in the Assembly:

- ❖ **Floor Test Principle:** In the **S. R. Bommai v. Union of India case**, the Supreme Court held that the **majority of a government must be tested on the floor of the Legislative Assembly and not decided by the Governor subjectively**.
- ❖ **Constitutional Role of the Governor:** The **Governor may direct a Chief Minister to prove majority** through a **floor test** when doubts arise regarding legislative support.

- ❖ **Possibility of President's Rule under Article 356:** If no party or coalition is able to demonstrate majority support and form a stable government, Article 356 may be invoked leading to President's Rule and possible suspension or dissolution of the Assembly.

Legal Recourse Available to a Defeated Chief Minister

- ❖ **Representation of the People Act, 1951:** Under Section 100 of the Representation of the People Act, 1951, a defeated candidate can challenge election results in the High Court within 45 days on grounds such as corrupt practices or electoral irregularities.
- ❖ **Writ Jurisdiction:** In cases involving alleged systemic violations of fundamental rights or electoral malpractice, petitions may be filed before the High Court under Article 226 or the Supreme Court under Article 32.
- ❖ **Judicial Resolution over Constitutional Deadlock:** Electoral disputes are expected to be resolved through constitutional and judicial mechanisms rather than refusal to vacate office.

Conclusion:

While these scenarios create political tension, the integrity of the electoral process and the supremacy of the Floor Test are the ultimate measures of constitutional validity.

Mains Practice

- Q. The 'pleasure of the Governor' under Article 164 is not an absolute discretionary power but is constitutionally tethered to the confidence of the legislative assembly. Examine this statement in light of Constituent Assembly debates and Supreme Courts judgments. (150 Words, 10 Marks)
